

Plant Proteins

Overview

In our overview you will find plant proteins with different amino acid profiles, for combination or sole use.

Product	Protein content	Origin	Functionality
Fava Bean protein (debitterized) 	60%	Europe	
Fava Bean protein (debitterized) 	60%	Europe	
Fava Bean protein concentrate 	60%	Europe	
Fava Bean protein concentrate (mild) 	60%	Europe	
Fava Bean protein powder (enzyme active) 	60%	Europe	
Pea protein isolate 	80%	Europe (without China)	texturized
Pea protein isolate Empro E 86	≥ 84%	Germany	emulsifying
Pea protein isolate Empro E 86 F30	≥ 84%	Germany	emulsifying, optimised mouth feel & taste
Pea protein isolate Empro E 86 HV	≥ 84%	Germany	emulsifying, high Viscosity
Pea protein isolate Empro E 86 LS	≥ 84%	Germany	low sodium, more tasteless quality
Pea protein (debitterized) 	53%	Europe	
Pea protein hydrolysate	75%	Europe	
Pea protein hydrolysate	75%	Non-Europe (without China)	
Barley protein	49%	Switzerland	
Barley protein 	49%	Switzerland	
Hemp protein powder	50%	Non-Europe	
Chickpea protein (debitterized)	42%	Europe	
Chickpea protein (debitterized) 	42%	Europe	

Plant Proteins

Overview

Product	Protein content	Origin	Functionality
Pumpkin seed protein	50%	Europe	
Pumpkin seed protein (native)	50%	Europe	
Pumpkin seed protein (roasted)	65%	Europe (without China)	
Almond protein powder	50%	Europe	
Almond protein powder	50%	USA	
PrOatein (Oat protein)	55%	Sweden	
Protein Plus Ex (Pea protein concentrate)	60%	France, Italy	emulsifying
Rice Protein Hydrolysate with Rice Peptides 70%	80%	China	Neutral taste, for clear protein drinks
Rice Protein Hydrolysate with Rice Peptides 80%	90%	China	Neutral taste, for clear protein drinks
Rice protein isolate	80%	Europe (without China)	texturized
Rice protein powder	80%	Europe	
Rice protein powder	80%	Non-Europe	
Rice protein powder	80%	Europe (without China)	texturized
Soy protein powder	80%	Europe	

Gluten-Free
